B6 MEMBERSHIP CATEGORY

Member	=	M0
Member plus 1 dependant	=	M1
Member plus 2 dependants	=	M2

Once the personal medical savings account has been exhausted on the BonComprehensive option, the member shall be liable for all expenses until the cumulative threshold has been reached, thereafter the benefits shall be paid above threshold. Claims in respect of out of hospital expenses which will accumulate to the threshold will be marked "Acc" in the column headed "CONDITIONS / REMARKS." Claims will accumulate to threshold at Bonitas Tariff. Any difference between the cost of an account and the Bonitas Tariff will not accumulate towards the Threshold, although this difference may be covered from available savings.

Once the personal medical savings account has been exhausted on the BonComplete option, the member shall be liable for all expenses until the cumulative threshold has been reached, thereafter the benefits shall be subject to the above threshold limit. Claims in respect of out of hospital expenses which will accumulate to the threshold will be marked "YES" against "Acc" in the column headed "CONDITIONS / REMARKS." B8

The threshold benefit becomes available after medical expenses are incurred and paid from the available medical savings facility, and if this is exhausted, paid by the member or beneficiary direct to the provider, until a threshold level of such total expenditure is reached in accordance with the table above whereupon further benefits become payable, identified as "threshold benefit". For each individual service category where a limit applies, the individual limits remains in place and the threshold benefit only applies in cases where the limit has not yet been reached. Once a benefit limit or sub-limit has been reached, no further claims can be paid from the threshold benefit in respect of that specific benefit for the remainder of the year. If a benefit is unlimited, the threshold benefit once it becomes applicable is also unlimited on BonComprehensive.

Threshold Level

The extent of the threshold level is determined as at 1 January each year, or at the time the member joins the Fund, by adding together the threshold levels given in the table above for the principal member, adult dependants and child dependants to arrive at a total amount per family. The threshold level will be adjusted during a benefit year should a member join during the course of the year and/or when a dependant is added or removed, or when a child dependant becomes an adult dependant.
